

THREE RIVERS COLLEGE

FY27 Annual Planning Priorities

Operations:

Achieve real and measurable progress in developmental student success by evaluating and refining current initiatives, exploring additional strategies and success measures, strategically implementing cross-functional processes, and by promoting a culture which affirms the expectation of success.

Collaborations:

Strengthen the perception of Three Rivers College as an essential local and regional partner and cultivate deep connections between college and community by continually demonstrating our investment in matters essential to our shared interests and values.

Engagement:

Promote and support collaboration between faculty and staff to leverage technology to enhance student accessibility and engagement in educational and community experience. Evaluate, identify, and support student needs related to the appropriate use of technology throughout their Three Rivers College experience.

Planning:

Elevate the use of internal and external data in planning, assessment, and continuous improvement by developing systematic approaches to data inquiry, prioritizing evaluation of trends specific to unit level success over time and data that directly support operational decision making.
